Company Profile

GDES specializes in supplying quality drilling and completion tools, accessories and equipment.

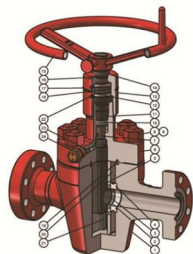

Our oilfield products conform to genuine API specs and are manufactured in ISO certified factories. Our main Valve products include gate valves, mud valves, frac heads and wellhead components etc

We offer quality well priced genuine products, shipped worldwide and accompanied by technical support and design assistance when required.

Our key strengths are strict quality control, competitive pricing, prompt delivery and efficient after sales support, ensuring peace of mind supply of quality products from a network of genuine API and ISO certified factory partners from across the globe.
